YOUR TEA IS ALWAYS FRESH THANKS TO HEPTAZE...

Arzum Çaycı Heptaze has stainless steel, movable tea filter.

At the end of the desired brewing period, pull the movable filter arm up and lock it to pot handle.

By easily removing the tea filter from the brewed tea after it's steeped, enables tea to preserve it's taste and freshness longer.

With the additional lid, Çaycı Heptaze stainless steel body can be used as kettle.
